

INDUSTRIAL PAINTER – De Pere, WI

Trudell Industrial Finishing provides specialized coating and finishing services to a wide variety of industries and our modern facilities allow us to accommodate a wide variety of painting processes. Because of these capabilities our business is expanding! Due to customer demand we have an immediate need for an experienced Industrial Painter to join the Industrial Coatings team at our Green Bay area facility.

The main duties of the Painter are to prepare customer equipment, product and assemblies for painting; prime, paint and sand materials; assemble and inspect product ensuring work meets company and customer quality standards; and follow safety procedures and policies.

The ideal candidate for this particular opening has a minimum of 4 years of prior industrial (wet paint) painting experience; can demonstrate an understanding of mixing paints and the proper use of paint spraying equipment; is proficient in the use of air and electrical power tools; has prior experience in material handling and shipping/receiving; has a proven track record of working in a fast-paced environment and completing work with a sense of urgency; and can portray a cordial and welcoming demeanor toward coworkers and customers. In return for your talent, Trudell Industrial Finishing offers a competitive wage and benefit package in an excellent working environment. For more information about Trudell Industrial Finishing, please visit our web site at www.trudellindustrialfinishing.com.

Qualified and talented Industrial Painters with a passion for excellent customer service are invited to complete an application form at:

Trudell Industrial Finishing, 2049 Creamery Road, De Pere, WI

Credentials may also be emailed to resume@trudellholdings.com.
